MACHINES

ALL-IN-ONE CRIMP AND TEST UNIT

BQ1005-6

A combination crimp-and-test unit, the **All-in-One Unit** is very easy to use and has a compact design that will fit in any shop. Its process control features make it equally suitable for single prototypes or production runs.

VERSATILE CRIMPING SYSTEM

BQ1006-2

The **Versatile Crimping System** (VCS) uses BrakeQuip's proven 8-finger crimp head combined with an air-over-hydraulic pump for a simple, quick, and reliable crimping system.

BRAKE HOSE PRESSURE TESTER

BQ1013A

The **Stand-Alone High-Speed Tester** is an air-over-hydraulic brake hose pressure tester.

/// Machine instructions are in the machine manuals.
